## WASD Math Action Plan

The WASD Administration and faculty have worke` collaboratively to develop this math action plan to meet the strategic goals developed by the WASD Board of School Directors and the goals identified in the WASD Comprehensive Plan.

## Area of Focus \#1 - Instructional Resources/Adoption

| Action | Assigned To | Completion Date | Progress |
| :---: | :---: | :---: | :---: |
| Review potential K-7 math resources with math committee and Make selection for primary resource | Committee comprised of: Assistant Superintendent, building-level administrators, grade level math teacher representatives, math intervention teacher, instructional coaches | Recommendation made during spring 2022 for Implementation at the start of 2022-2023 school year | July 2022 - Purchased and implemented Eureka Math Squared materials for K-7. |
| Consider and pilot supplemental resources | Committee comprised of: Assistant Superintendent, building-level administrators, grade level math teacher representatives, math intervention teacher, instructional coaches | Recommendation made during spring 2022 for pilot implementation at the start of 2022-2023 school year | 2022-2023 - Conducted a full-year pilot of the following supplemental resources to support math instruction: <br> K-4: Dreambox <br> 5-6: Zearn |
| Determine next steps with use of supplemental instructional programs | Assistant Superintendent, building-level administrators, grade level math teachers, math intervention teacher, instructional coaches | June 2023 | Spring 2023 - Meetings with building teams to discuss advantages and disadvantages of programs <br> Implementation of IXL Diagnostic in grades K-6. |

| Research middle level math <br> resources of higher <br> level/Depth of Knowledge <br> (DOK) | Assistant Superintendent, <br> JSHS administrator, grades 7-8 <br> math teachers, instructional <br> coach | $23-24$ academic year and <br> beyond | Selected Eureka Math Squared as <br> the primary instructional resource <br> for the Algebraic Concepts grade 8 <br> course offered in 2024-2025. |
| :---: | :---: | :---: | :--- |

## Area of Focus \#2 - Instructional Practices

| Action | Assigned To | Completion Date | Progress |
| :---: | :---: | :---: | :---: |
| Model Eureka Math Squared <br> lessons in each K-6 classroom | Instructional Coaches, Math <br> Intervention Teacher, <br> Classroom Teachers | September 2022 | Lessons were modeled <br> throughout the month in each <br> math classroom. Debriefs were <br> held with each teacher. |
| Meet with Dr. Josh Hoyt, <br> BCIU Program Administrator, <br> to plan survey administration <br> and math walks | Assistant Superintendent, Dr. <br> Josh Hoyt, BCIU Program <br> Administrator | February 2023 | Phone and in-person <br> conferences held during <br> December 2022, January 2023 <br> and February 2023 |
| Distribute survey to teachers <br> regarding math curriculum, <br> instructional practices and <br> needs | Assistant Superintendent | February 2023 | Survey was created in January 2023 <br> and administered in February 2023; <br> Results reviewed in February 2023 |

| Conduct math walks in each <br> classroom K-Algebra II | Dr. Josh Hoyt, BCIU Program <br> Administrator | February 2023 | Three days of math walks: <br> February 15, February 16, <br> February 17 |
| :---: | :---: | :---: | :---: |
| Identify trends from math <br> walks to tailor future <br> professional development <br> needs | Dr. Josh Hoyt, Assistant <br> Superintendent | February 2023 | Identified small group and <br> differentiated instruction as <br> primary PD needs. |
| Share information gathered <br> from math walks to staff | Assistant Superintendent, <br> Building-level principals, <br> Faculty | March 2023 | Faculty meeting and grade <br> level discussions focused on <br> sharing results |
| Conduct Math Overview - <br> Board Presentation | Assistant Superintendent, Dr. <br> Josh Hoyt, BCIU Program <br> Administrator, Board of <br> School Directors | March 13, 2023 | Presentation was held in <br> March 2023 |
| Departmentalize the fourth <br> grade team so team of <br> three teachers will focus on <br> the teaching of math and <br> science. | Assistant Superintendent, <br> Building-level Administrators | April 2023 | April 2023 - Held meeting <br> with the grade 4 team to <br> explain advantages and <br> challenges. |
| Accepted input from |  |  |  |

|  |  |  | instructional decisions. <br> (MTSS meetings) |
| :---: | :---: | :---: | :---: |
| Provide feedback to teachers <br> on use of small group <br> instruction through <br> classroom walkthroughs and <br> observations | Building-level administrators, <br> Assistant Superintendent | 2023-2024 school year <br> and beyond | Increase in use of small <br> group instruction as <br> evidenced by walk-through <br> documentation. <br> Continue to work on <br> increased differentiation. |

Area of Focus \#3 - Professional Learning

| Action | Assigned To | Completion Date | Progress |
| :---: | :---: | :---: | :---: |
| Facilitate math "Make and <br> Take" sessions focused on <br> developing math fluency and <br> center rotation ideas | Instructional Coaches and | Math Intervention Teacher | 2021-2022 academic <br> year <br> $2022-2023$ academic <br> year and beyond |

$\left.\left.\begin{array}{|c|c|c|c|}\hline \begin{array}{c}\text { Facilitate a Launch workshop } \\ \text { featuring the introduction of } \\ \text { Eureka Math Squared to } \\ \text { math WASD teachers }\end{array} & \begin{array}{c}\text { Eureka Math Squared } \\ \text { facilitator, Assistant } \\ \text { Superintendent }\end{array} & \text { August 2022 } & \begin{array}{c}\text { Launch Workshop held in August } \\ 2022\end{array} \\ \hline \begin{array}{c}\text { Schedule sessions to preview } \\ \text { upcoming math modules }\end{array} & \begin{array}{c}\text { Assistant Superintendent, } \\ \text { Building-level Administrators, } \\ \text { Instructional Coach }\end{array} & 2022 \text {-2023 } & \begin{array}{c}\text { Scheduled sessions throughout the } \\ \text { school year to allow teachers to } \\ \text { examine resource prior to new } \\ \text { module implementation }\end{array} \\ \text { (used early dismissals and }\end{array}\right] \begin{array}{c}\text { in-service time, provided substitute } \\ \text { coverage) }\end{array}\right\}$

| Action | Assigned To | Completion Date | Progress |
| :---: | :---: | :---: | :---: |
| Create and implement the Math Intervention Teacher position to provide intervention/remediation support to students in grades 2-4. | Assistant superintendent, Building-level administrators, math intervention teacher | 2021-2022 school year | Use of ESSR funding to create position to start in the 21-22 school year. ESSR funding supports this position for three years. Plan to transition to use of district funding to support continued position. <br> 22-23 and 23-24 school years: Position extended to support students in grades K-4. |
| Implement a MTSS Math Framework Plan - Collect K-6 math achievement data and screening data to determine students in need of support | Building-level administrators, Math Intervention Teacher, Instructional Coach, Supervisor of Assessment and Interventions | ongoing | 2022-2023 school year - Data collection and conducted Intervention Planning meetings to discuss data and prescribe interventions |
| Provide targeted interventions to students in grades K-4 | Math Intervention Teacher | ongoing | Intervention Planning Meetings (IPMs) held regularly to discuss data and progress and to adjust supports when needed. <br> 2023-2024-MTSS Implemented in full-force at WHEC. Supporting between 42-54 students in |

|  |  |  | math throughout the <br> school year |
| :---: | :---: | :---: | :---: |
| For grades 5 and 6, identify <br> time and human resources <br> for intervention support. <br> Implement a MTSS Math <br> Framework trial plan. | Building-level administrators, <br> Instructional Coach, <br> Supervisor of Assessment and <br> Interventions | Spring 2023 | Spring 2023- Limited trial at WREC <br> to provide intervention supports |
| Implement a K-6 MTSS Math <br> Framework Plan | Building-level administrator, <br> Supervisor of Assessment and <br> Interventions, Assistant <br> Superintendent, Instructional <br> Coach, Classroom Teachers | 2023-2024 school year | Initiated an MTSS Framework Plan <br> for WREC - Held three rounds of <br> IPMs to determine specific student |
| needs and identify process to |  |  |  |
| implement interventions. |  |  |  |

## Area of Focus \#5 - Time Allocations/Schedule

| Action | Assigned To | Completion Date | Progress |
| :---: | :---: | :---: | :--- |
| Increase time allocation for | Assistant Superintendent, | Summer 2022 | Increase in time allocations for K-6 |
| math instruction |  |  |  |
| (75 minutes for K-4; | Building-level Administrators |  | was completed during the |
| $\mathbf{6 5}$ minutes for 5-6) |  |  | $2022-2023$ school year. |
|  |  |  | K-4 instructional minutes range |
|  |  | $75-90$ minutes per day. |  |
|  |  | $5-6$ instructional minutes is |  |
| approximately 65 minutes per day. |  |  |  |

| Identify options for schedule <br> changes to JSHS - specifically <br> middle level math and ELA | Assistant Superintendent, <br> Building-level Administrators, <br> Teacher Committee | 2023-2024 school year | Board Presentation - February <br> 2024 included an update on <br> meetings with outside consultant. <br> A proposal was shared and <br> discussed with Board. More <br> information will be gathered by |
| :---: | :---: | :---: | :--- |
| Implement potential <br> schedule change at the JSHS | Assistant Superintendent, <br> Building-level Administrators, <br> Board of School Directors | 2024-2025 school year | A plan to increase math <br> instructional minutes was <br> presented to the Board after <br> administrators worked with |
| teacher representation. For the |  |  |  |
| 2024-205 school year, the plan to |  |  |  |
| increase instructional minutes for |  |  |  |
| on-level math courses (adding 82 |  |  |  |
| minutes per cycle) was approved |  |  |  |
| in February 2024. |  |  |  |

Area of Focus \#6 - Curriculum Writing

| Action | Assigned To | Completion Date | Progress |
| :---: | :---: | :---: | :---: |
| Identify math curriculum writing committee grade level representatives | Assistant Superintendent | June 2023 | Committee was formed in spring of 2023. |
| With committee members, draft a curriculum writing schedule for the 2023-2024 school year | Assistant Superintendent, Grade level representatives | Summer 2023 | Committee met regularly beginning in August 2023 (drafted schedule collaboratively) with a target completion of spring 2024. |
| Write math curriculum for grades K-7 using the district-approved template | Assistant Superintendent, Math committee representatives | Summer 2023 through 2023-2024 school year | Grade levels are on target to complete process by Spring 2024 |
| Revise math course sequence at the junior high level to provide additional year of middle level math instruction for most students prior to Algebra I | Assistant Superintendent, Building-level Administrators, JSHS math teachers, Board of School Directors | Spring 2023 for implementation in 2023-2024 school year | - Meeting was held with the Algebra I and Algebra II teachers to discuss options to increase achievement. <br> - Options were proposed and teacher input was provided. <br> - Information was shared with the Board of School Directors in April 2023 <br> - Team decided to wait to adjust the course sequence |

|  |  |  | and add instructional <br> minutes until the <br> $2024-2025$ school year. |
| :--- | :--- | :--- | :--- |
